

Mi-CCSI
Treating Pain & Addiction

April 22, 2022

Instructions to Earn Continuing Education Credit

1. To complete the program evaluation and posttests go to:

<https://www.lecturepanda.com/r/TreatingPainAddiction-April-Mi-CCSI>

When completing the program evaluations and posttests, you will be required to provide your CPE Monitor e-profile identification number as well as date of birth (month and day only). This information is necessary to receive continuing education credit. If you do not provide this information, credit cannot be awarded. If you have not registered for CPE Monitor, please register at MyCPEMonitor.net.

The program evaluation and posttests must be completed no later than May 6, 2022. Evaluations and posttests will not be available for completion and requests to process credit will not be accepted after this date for any reason.

2. Once you have successfully completed the program evaluation and posttests with a score of 70% or greater, credit will be uploaded to your CPE Monitor record.

NOTE: Guidelines established by the Accreditation Council for Pharmacy Education prohibit MPA from issuing credit more than 60 days after the activity for any reason; therefore, participants are encouraged to review their CPE Monitor record to ensure credit has been submitted and errors can be resolved prior to the 60-day deadline. MPA will not be able to issue credit after the 60-day deadline has passed.
